

## MEMORANDUM

To: Public Education Commission (PEC)

From: Charter Schools Division (CSD)

Date: April 17, 2025

Re: San Diego Riverside Charter School (SDRCS) Proposed Renewal Condition

---

CSD recommends accepting the action steps to address the PEC's conditions proposed by SDRCS for the 2025-26 school year.

Due to the complexity of the proposed corrective actions, CSD recommends an on-site visit to SDRCS on or about June 30, 2025, to be scheduled with head administrator and any members of the leadership team the head administrator wishes to include, to review the following:

- End of year interim assessment data
- Outcomes from strategic planning with PCSNM mentors
- Agendas and sign-in sheets (if appropriate), school leader's assessment of effectiveness, and plans for incorporating into ongoing practice:
  - LETRS training
  - CLR Deep Dive Institute
  - Special Education Academy (winter and spring)
  - Charter School Testing Services data analysis
  - Observations at identified high-performing charter schools
  - Tutorfly tutoring
  - English Learner support with Dr. Ayanna Cooper
  - Friday staff PLCs
  - Teacher evaluation and feedback

CSD will report to PEC at the July 18, 2025, meeting as to whether the proposed 2025-26 conditions were satisfied.

For SY 2025-26 and beyond, CSD recommends the same academic and tribal consultation conditions imposed on the schools signing contracts in 2025, with the professional development and academic improvement plan incorporated into the DASH plan to be uploaded into Epicenter by August 15, 2025. That plan should include all elements of the 2024-25 plan which the school indicated would continue into the 2025-26 SY.
