

### **Draft 3.C. Compliance List 2025-26: CSD Revision Notes**

This sheet contains the following tabs:

Instructions (no edits)

The original 2024-25 Compliance List that is linked on the PEC Performance Framework web page

A 2025-25 DRAFT "Redline" that is not an actual redline in track changes mode because Google Sheets does not have a redline function as Google Docs does, so edits are made by striking through text to be deleted and putting text to be added in red font

A 2025-25 DRAFT Changes Accepted proposed final version

At the direction of the PEC Charter Performance Subcommittee, items without a requirement in New Mexico Statutes Annotated (NMSA) or the New Mexico Administrative Code (NMAC) have been removed from the 2025-26 list.

The 2024-25 version had in several places "submitted timely and implemented"; because this is a requirement for everything on the compliance list, this language has been eliminated from individual lines.

A number of links did not link to the correct URL, or links to PED guidance pages led to a page no longer available. These have been corrected or removed. Links are to NMSA and NMAC only. PED guidance pages have been removed, as these pages may be revised by PED bureaus and therefore change. All PED guidance is available by visiting the appropriate bureau's main page and following the links there.

These three tabs are included in PDF form in the meeting materials, while the Google Sheet version is included in the work session Google folder in case edits need to be made during the work session. If they do, CSD Director will copy the Redline tab, rename it as 6.26.25 Work Session, make additional edits, and PDF that version to add to the meeting materials along with the draft version prepared for the work session.
