### NMSA Residential Program

The NMSA Residential Program provides access to NMSA's educational opportunities to students who live beyond daily commuting distance and gives NMSA its unique, statewide character.

Thanks to residential program operational funding committed by the State of New Mexico for FY2025 and FY2026, participation in the residential program is being provided at no cost to students for the 2024-2025 and 2025-2026 school years. This funding also allowed us to expand our program capacity to from 40 to 60 residential students and to offer a 7-day option for students living further than 125 miles from the school.
