**Dream Diné Charter School Mission Statement Amendment Request
June 27, 2025, Public Education Commission (PEC) Meeting
Charter Schools Division (CSD) Analysis**

Request: Dream Diné Charter School requests PEC approval to amend Section 3.3 of the school's contract, replacing the mission statement with the following:

Dream Diné Charter School provides an experiential education rooted in Diné philosophy and language, empowering students to achieve academic success and contribute to their communities.

Analysis: Dream Diné Charter School's proposed mission statement reflects not a change in mission, but rather a more succinct statement of that mission. The revised mission affirms the school's commitment to academic success and will be easier to communicate to families and to the larger community. Though dual language is not mentioned in the revised mission, it remains in the educational program and the school confirms it will continue to be part of the program.

Recommendation: CSD recommends approving the change requested.
